

*My***Budget**.[®]

Live the
life you want,
free from
money worries

No more money worries

Nearly everybody worries about money at some point in their life. But what if you had no money worries? How great would that feel?

MyBudget's here to help you **live the life you want, free from money worries.**

We do that by helping to pay your bills on time, making sure you have enough money for living and setting aside savings for your security and peace of mind.

All this and more is possible when you have the right plan plus caring support and structure to keep you on track.

“MyBudget has given me the structure and support I needed to live within my own means. I'm paying my bills on time, I'm saving money and I'm not missing out on anything that I used to do.”

We're on a mission

MyBudget's mission is to eliminate financial stress in the community one person and household at a time.

Since 1999, we've grown into a national company with offices all over Australia and helped more than 65,000 people get financially fitter.

The people we help come from all walks of life. Our members are as diverse as society itself. We have clients who are single, have a family, are married or separated. Some work full-time, others are casual. We have clients who are first-job holders all the way to CEOs on six-figure salaries, and every trade and profession in between. We can help just about anyone who has a regular income. This may be a wage, salary, pension, annuity or government benefit.

Most people come to MyBudget wanting to better understand their financial position and develop a tailored strategy that gives them the structure, tools and control they need to pay off their debts more quickly and fast-track their savings. 100% of our clients share the goal of getting financially fitter!

“After just 8 months, we’ve managed to buy our first investment property and a campervan. So now we can go away on the weekends with the kids. MyBudget has helped us unlock our full financial potential.”

Bec & Jarrad

Real MyBudget Clients

**Imagine a life free from money worries.
MyBudget can make that happen.**

How does MyBudget work?

Every MyBudget success story starts with a free budget consultation with one of our caring money experts.

We'll work with you to design a detailed money strategy to suit your financial goals and the lifestyle you want to live.

Your personalised budget plan will outline your options and show what you can achieve with your money in the next 12 months and beyond.

This plan is yours to take home for free or we can offer to manage your budget for you.

We can pay your bills, set aside savings and make sure you have enough money for living. If necessary, we can also speak with your creditors and propose more affordable payment arrangements.

Basically, we do all the work for you. All your payments are taken care of so that you don't have to worry about a thing. Plus, you have 24/7 access to your budget online or in the palm of your hand with the MyBudget Official App.

It's like having a personal money coach who does the heavy lifting to keep you financially fit.

Live the life you want, free from money worries

MyBudget is Australia's trusted expert in freeing people from their money worries and helping them achieve their financial goals faster.

- ✓ Pay your bills on time
